

Rig Equipment Ltd - Brexit Plan

Dear customer:

With the current political turmoil surrounding the UK's exit from the European Union we would like to inform you that Rig Equipment Limited have been working in the background in order to mitigate any potential disruptions to the supply chain as a result of a no deal Brexit.

You can be assured that the supply chain to Rig Equipment Limited in any outcome of the Brexit negotiations will be un-interrupted.

- Rig Equipment Limited has already addressed the process of maintaining the supply of EU sourced stock, held in the UK consignment stock. Our suppliers are based internationally and can supply the company from alternative hubs if required to do so.
- The company has recently finalised negotiations with the UK based fabric weavers and dyers to ensure a seamless supply chain of key components in the future.
- Rig Equipment Limited are constantly working to maximise their supply chain to continue to manufacture at their production hub in the West Midlands and supply quality products at competitive prices.

Rig Equipment Limited would like to thank you for your loyal support and would like to thank you for your business.

Kind regards,

Ray Formosa
